CF30 STOCKTON COMPOSITE TRAINER

FLYKNIT
MESH UPPER

PROTECTIVE
METAL-FREE TOE CAP

PROTECTIVE
METAL-FREE MIDSOLE

DESCRIPTION

Blackrock's Stockton Safety Trainer is a modern style that is ideal for a wide and varied range of industries. Featuring a flyknit mesh upper, it has both toe cap and midsole protection made from lightweight, metal free composite material. The hardwearing, dual density PU sole is shock absorbent, anti-slip and fuel oil resistant.

SIZES

UK 3-13

MATERIALS

- Flyknit mesh upper
- PU/PU sole
- Composite toe cap
- Composite midsole

TYPICAL INDUSTRIES

- Automotive
- Transport
- Warehousing
- Airports & Logistics

CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3L HRO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
